

APPENDIX B. MAP DISPLAYS FOR SOUTHERN CALIFORNIA

In this appendix, map displays are provided for individual ozone-episode days occurring in southern California. The calculations were carried out using the NO_y version of the SP algorithm (see Section 2). The expected bias in the calculated extent of reaction caused by the bias of the " NO_x " data is discussed in Section 5. The bias is negligible for extent less than 0.5. When the true extent approaches one, the displayed values overestimate the true extent by 0.1 to 0.2 units.

One or more typical ozone episodes are shown for each region. A common display format is used for all days. On each map, the extent of reaction is indicated for each daytime hour by the shading (see legends). Circle wedge sizes are proportional to the hourly ozone concentrations and the hour of the ozone peak is marked according to the positions on a conventional clock (see legends). In some cases, one or more overlapping sites have been displaced from their actual locations. A line has been drawn from the displaced to actual positions.

MOJAVE DESERT AIR BASIN

03 Jul 1997

EQUATION: Revised, NO_y Version (alpha= 0.667, beta= 19.000, O₃(0)= 40.000, no NO_y correction)

PEAK OZONE:

SALTON SEA AIR BASIN

03 Jul 1997

SCALE

60.9370 km

EQUATION: Revised, NO_y Version (alpha= 0.667, beta= 19.000, O₃(0)= 40.000, no NO_y correction)

PEAK OZONE:

EXTENT	SHADING
Insufficient Data	Blank
.0 - .50	White
.51 - .80	Light Gray
.81 - .95	Medium Gray
.96 - 1.0	Black

SAN DIEGO AIR BASIN

03 Jul 1997

SCALE

23.4602 km

EQUATION: Revised, NOy Version (alpha= 0.667, beta= 19.000, O3(0)= 40.000, no NOy correction)

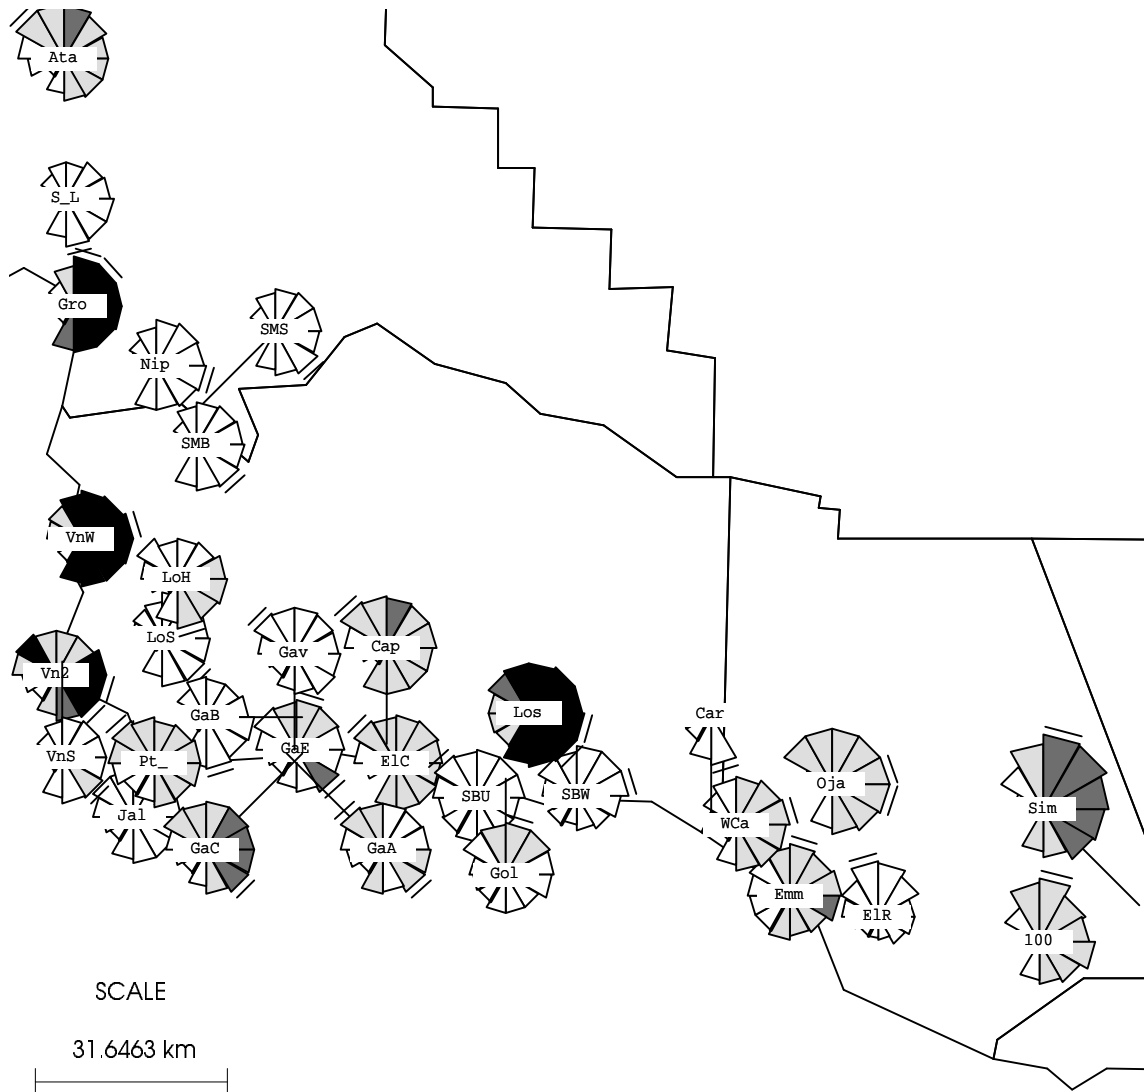

PEAK OZONE:

EXTENT	SHADING
Insufficient Data	Blank
.0 - .50	White
.51 - .80	Light Gray
.81 - .95	Medium Gray
.96 - 1.0	Black

SOUTH CENTRAL COAST AIR BASIN

24 Jun 1995

EQUATION: Revised, NOy Version (alpha= 0.667, beta= 19.000, O3(0)= 40.000, no NOy correction)

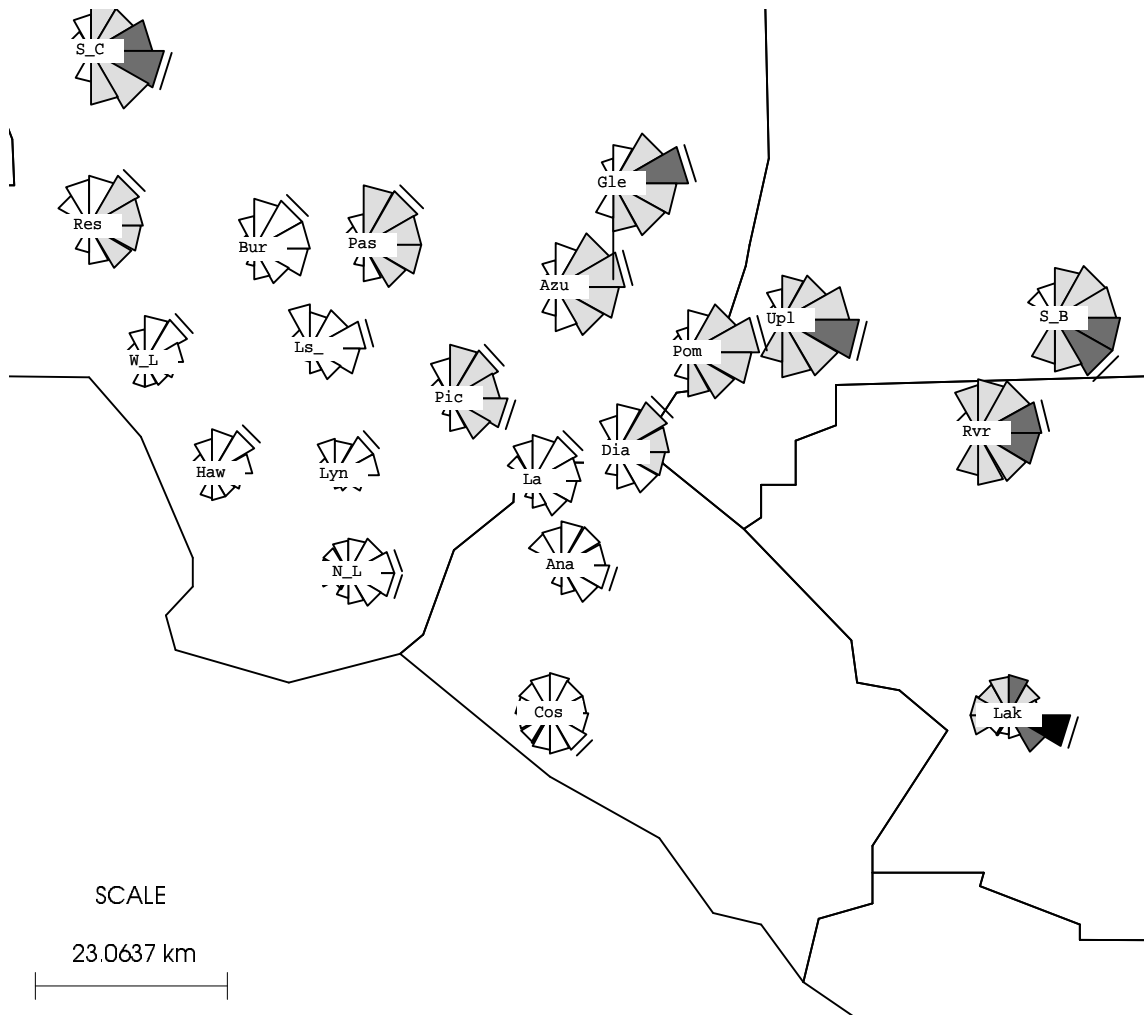

PEAK OZONE:

EXTENT	SHADING
Insufficient Data	Blank
.0 - .50	White
.51 - .80	Light Gray
.81 - .95	Medium Gray
.96 - 1.0	Black

SOUTH COAST AIR BASIN

24 Jun 1995

EQUATION: Revised, NOy Version (alpha= 0.667, beta= 19.000, O3(0)= 40.000, no NOy correction)

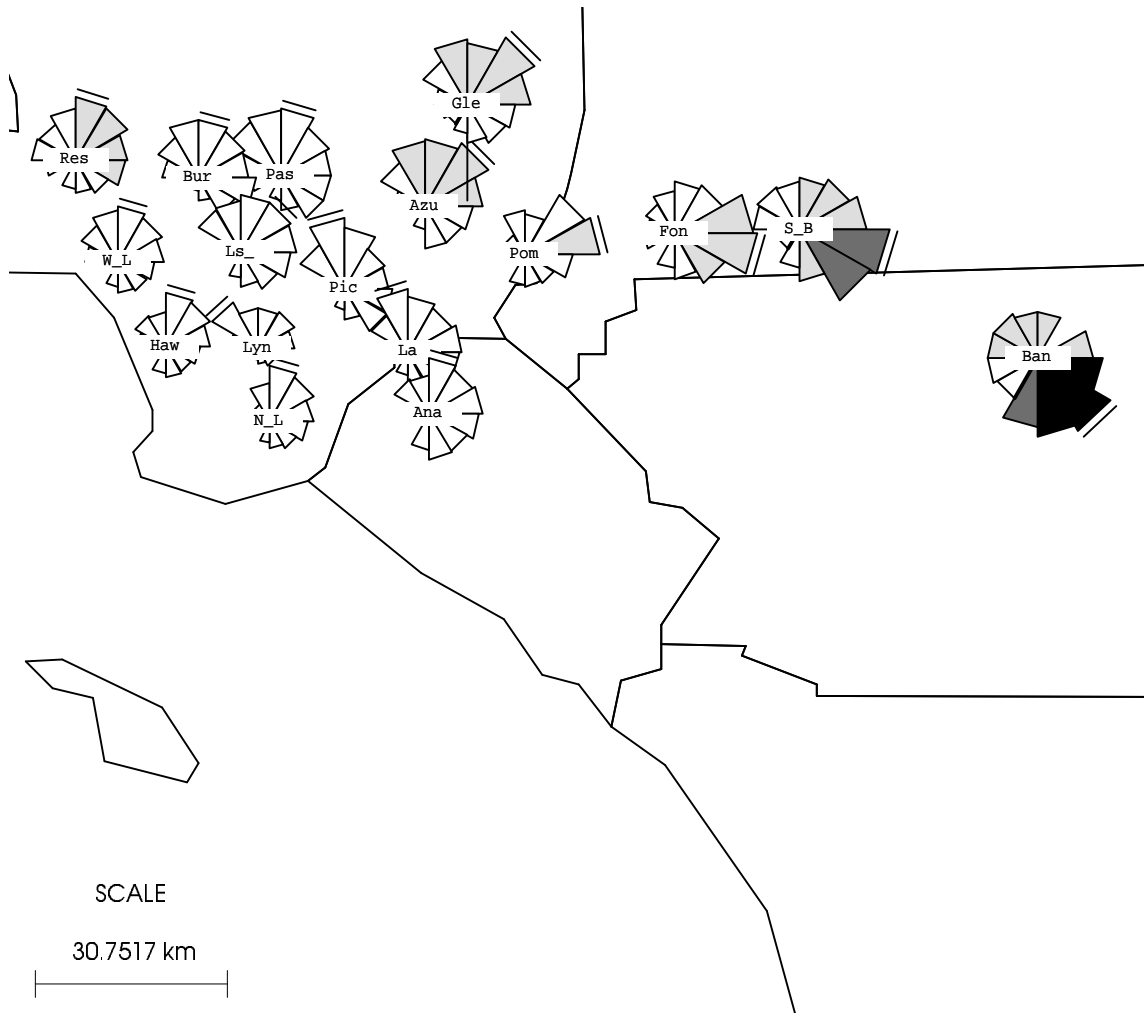

PEAK OZONE:

EXTENT	SHADING
Insufficient Data	Blank
.0 - .50	White
.51 - .80	Light Gray
.81 - .95	Medium Gray
.96 - 1.0	Black

SOUTH COAST AIR BASIN

03 Jul 1997

EQUATION: Revised, NOy Version (alpha= 0.667, beta= 19.000, O3(0)= 40.000, no NOy correction)

PEAK OZONE:

EXTENT	SHADING
Insufficient Data	Blank
.0 - .50	White
.51 - .80	Light Gray
.81 - .95	Medium Gray
.96 - 1.0	Black
